KSLU042-49

Specifications

·Sturdy and Durable: The bollard post is made of a combination of thickened stainless steel and surface polishing with weld grinding process. It is durable, not easy to rust, and has the greatest strength, durability, and resistance to oxidation, UV rays, and harsh weather conditions

·Easy Parking: Many people use these in their garages or driveways to mark when to stop their cars. It is convenient and quick to park

·High Visibility: The surface layer of the parking bollard is made of strong reflective sheeting, which sticks tightly and firmly. It is not easy to fade and fall off after long-term exposure. It has a long-lasting reflection and improves the driver's visibility to improve driving awareness and caution

·Multiple Uses: The traffic control pole is perfect for emergency responders, maneuverability driver training, horse courses, camping and driveway warning signs. Cordon off areas for the parking lot, side or other public areas to prevent the car from being scratched

·Sturdy and Durable: The bollard post is made of a combination of thickened stainless steel and surface polishing with weld grinding process. It is durable, not easy to rust, and has the greatest strength, durability, and resistance to oxidation, UV rays, and harsh weather conditions

·Easy Parking: Many people use these in their garages or driveways to mark when to stop their cars. It is convenient and quick to park

·High Visibility: The surface layer of the parking bollard is made of strong reflective sheeting, which sticks tightly and firmly. It is not easy to fade and fall off after long-term exposure. It has a long-lasting reflection and improves the driver's visibility to improve driving awareness and caution

·Multiple Uses: The traffic control pole is perfect for emergency responders, maneuverability driver training, horse courses, camping and driveway warning signs. Cordon off areas for the parking lot, side or other public areas to prevent the car from being scratched

Specifications

· The car bollard's locking arm features reflective tape that allows for visibility in low light or at night.
· The pillar and the base are separate. If parking pole blocks the road, the column part can be temporarily removed.
· The hanging ring is welded very firmly, it is easy to pass the chain through the hanging ring.
· Stainless steel Pipe Bollards protect buildings, pedestrians and equipment from vehicle or forklift collisions.
· Ideal for parking spaces and driveways
